

# MADE TO TAKE IT.

*Rugged Hard Disk  
& Optical Disk  
Mass Storage*

VIA WIGWAG

**MADE TO TAKE** Rugged Grade COTS products are designed for embedded systems that operate in environments of extreme temperature, altitude, explosive decompression, shock and vibration, humidity and condensation, dust and dirt, and electro-magnetic radiation. Vanguard Rugged Grade COTS products are designed for tactical aircraft, multi-engine aircraft, commercial aircraft, guided missiles, the space shuttle, armored vehicles, HUMVs, trucks, transportable command and communications, surface warships, and submarines... anywhere that's not cool, comfortable, and smooth.

**Build your system from standard modular products.**

Rugged Docking Bays,  
SCSI, FC, IDE & USB

Hermetically Sealed Disk Drives

Solid State Drives

Hermetically Sealed  
Disk Drive

Rugged Disk Drives

Optical Drives

ATR Systems

Custom Chassis Systems

RAID Systems for Ultra High Data Rate
