

# STANDARDIZED CUSTOM.

*Industrial Grade COTS Mass Storage*

VANGUARD

**STANDARDIZED CUSTOM** Industrial Grade COTS storage devices and systems are built for embedded computers where storage removability, special configurations, interface, power requirements and environmental conditions are required. Vanguard Industrial Grade products are designed to be integrated into industrial control systems, commercial and passenger vehicles, field deployable computers, telecommunications systems, mobile command & control centers, military-aerospace computers based upon the "ruggedized COTS" concept.

**Build your system from standard modular products.**
