# RUGGED FLASH MASS STORAGE

Solid State (FLASH) products are designed for embedded systems that operate in environments of extreme temperature, altitude, explosive decompression, shock and vibration, humidity and condensation, dust & dirt, and electro-magnetic radiation. Based on state of the art technology, Vanguard Rugged Solid State (FLASH) products support: SCSI Ultra-160, SCSI Ultra-40, SCSI Ultra-NarrowUltra-ATA, Serial ATA, and the 2 Gbit/sec. Fibre Channel interface. Data is protected by the most advanced sanitization / de-classification algorithms in the world. System storage capacity can be measured in Tera-Bytes (1,000 GByte).

## BUILD YOUR SYSTEM FROM STANDARD MODULAR PRODUCTS.

5 1/4" Half Height FF Removable Drives

3 1/2" Disk Drive FF Removable Drives

Legacy FF Removable Drives

PMC Flash Disks

1, 2 & 3 Slot Air Cooled Modules VME, cPCI

1, 2 & 3 Slot Conduction Cooled Modules VME, cPCI

1, 2 & 3 Slot Removable Drive Modules VME, cPCI

SCSI Ultra-320 1/2 ATR

FC 4 Gb/sec 1/2 ATR

NAS or SAN 2U 19" Rack

FC 4 Gb/sec Modified 4U 19" Rack

Gbit Network Attached RAID

100 Mbit Network Attached Storage
